## \$52,817 BG BUILDING INCREASE

BELLE GLADE — A building increase of \$52,817 for the first four months of 1956 over the same period in 1955 was reflected this week in Building Inspector W. L. Cunningham's report.

The four-month period ending Apr. 30 showed a total of \$432,927 in value of permits issued as against \$381,110 for the 1955 period, Cunningham said.

In the month just past, a \$100,000 permit for a new Negro First Baptist Church was the largest single item, Cunningham's report shows.

New and additional building by Re-Max Chemical Company, Inc. was a total permit valuation of \$18,000.

Permits for new homes were issued to John Ellison, Albert T. Jacobs, L. M. Altman and N. B. Willis properties. The month's total permit valuation was \$151,100.

## NEW BUILDING FOR CEMETERY

Port Mayaca Cemetery, supported by the tri-city payments of South Bay, Belle Glade, and Pahokee, will get long-needed restroom facilities this summer, Supervisor Frank Thompson announced this week.

A 30 x 12 ft. concrete block building will be constructed, housing two restrooms, a shelter area, and a cemetery maintenance utility room, Thompson said.

Cost will be minimal to the three cities, he pointed out, because J. C. Blanton of Pahokee and Leonard Maxson of Canal Point have offered free help on Saturdays, and there are several other volunteers who donate their services. Thompson said work would begin in a few days and continue on Saturdays until the building is finished.

## Valuation Fuss Over Until Fall

PAHOKEE — The uproar following opening of the new property valuation books by Huntress & Associates, last week culminated Friday night in an exchange of "last words" until the board of equalization meets next fall.

Some two dozen property-holders appeared at an adjourned meeting of City Council, called originally to seal the voting books and accept candidates' petitions.

Commissioner Loren Meredith was absent, and James H. Wilkinson, Jr., chaired the meeting.

After any expressions were made from the audience, Wilkinson called on City Attorney Ralph O. Johnson to give an explanation of how the new valuations enlarge the number of taxpayers, enabling a possible cut in millage.

Using actual cases from the valuation books, Johnson prefaced his blackboard explanations by saying, "The error people are making is in thinking that increased valuation means that taxation goes up according to it."

He then used the actual examples, farmhouses, subdivisions, and businesses to show that the valuations as newly prepared could result in a cutback in millage as low as to 92 provided the city budget calls for the same amount — \$37,514.50 — in ad valorem taxes as last year.

After considerable discussion, residents were assured that the council as reorganized after next Tuesday's election would hear any and all complaints when it sits as equalization board next fall.

Councilman R. B. Simonson noted that the millage was 19.5 when he came on the council six years ago. "Now it is 16," he said, "because council big rays has made an effort to lower taxes, not raise them." "If nobody else can make the panic button work," he continued, "we now have books set up to give an equal tax just to all, in a way much more just and equitable than in the past."

## Glades Puts Best Food Forward; Editors Eat, See, Learn, Praise

The Glades is due for a lot of well-deserved publicity, if some 60 members of the American Agricultural Editors Association meant what they said last Friday after rapturously eating a Glades-grown luncheon of corn, catfish, and beef.

The luncheon at County Barn was followed by a fast-moving program emceed by Luther Jones of Belle Glade, and highlighted

## BOND BALLOT IS POSTPONED

BELLE GLADE — The planned referendum on the proposed \$2,200,000 bond issue for municipal improvements was postponed indefinitely this week by the City of Belle Glade.

The postponement of the referendum was decided Monday, after a meeting of the City Commission, Belle Glade Citizens Improvement Committee, and representatives of both Russell & Axon, engineers, and B. J. Van Ingen, fiscal agents.

To City Manager Clarence Wood, will fall the task of making changes in the present information brochure on the bond issue, clarifying the rate classification and making probable revisions in the proposed out-of-city water and sewage charges.

After thorough study and incorporation of suggested changes in charges and procedures, Robinson will present the provision to the group which met Monday. A date for the referendum probably will be set at that time, Robinson said.

## Mrs. W. Sews Up Singer Contest

BELLE GLADE — Mrs. Guy Wood, Jr., was first place winner in a dress contest sponsored by the West Palm Beach agency of the Singer Sewing Machine Co. Her dress has been sent to Atlanta, where it will be entered in the regional semi-finals. Winner at this level will receive a trip to New York where she will model her dress in a national "Sew-Off" with a possible prize of \$25,000.

Mrs. Wood said that about 30 were eligible to enter the West Palm Beach contest. Her prize for winning in this step was a scissor set in a leather case. Judging was done in West Palm Beach with the contestants modelling their entries.

Mrs. Wood described her dress as a navy linen sheath with three sleeves, sent to the back of the skirt, and a bodice in three colors, white, American Beauty rose, and navy. It has short sleeves. Modelling it, Mrs. Wood added navy accessories and a large white hat. She said that there had been about 70 dresses in the Atlanta semi-finals.

Farming is a basic industry. Over one half of all raw materials used in the U.S. annually come from agriculture, according to the Florida Farm Bureau.

W. Turner Wallis, executive director of the Central and Southern Florida Flood Control District of early efforts and the present great plan of flood control and water conservation in the Glades.

Paul Thompson described his operations in the Glades and said, "We have a beef ponding indefinitely this week by the City of Belle Glade."

Noting that four county commissioners were in the audience, he said that for their benefit he would like to point out that "Those in power should pay more attention to the county by putting in additional farm roads and opening more land, thereby also lessening the number of new inaccessible muck and grass fires."

John Dulaney of the Harold Rabin Co., Inc. emphasized Glades' vegetable producers' constant efforts at modernizing and streamlining the handling of perishable commodities to their freshness for the northern consumers. M. U. Mouton, county agricultural agent, spoke of vegetable production and the state forward in Glades crop production. Dr. R. V. Allison, fish expert, presented AASA President Thomas J. Anderson and Mrs. Anderson with ramie materials for suits.

Anderson, Dick Evans of Monmouth, and Herald & Weekly Star and Sam Guard, editor of Breeder's Gazette, pronounced themselves and the other visiting editors "overwhelmed" at the bounty of the Glades.

They complimented the South Bay women who served the luncheon as well as the colorful vegetable table decorations produced under the general chairmanship of Mrs. Irvin Zump.

By members of the garden clubs of Pahokee-Canal Point, Clewiston, Belle Glade, Chosen, and Belle Glade Garden Study Club.

Through a camping club, he said, erstwhile non-campers will get knowledge and education in outdoor life, parents and their children can enjoy outings together, and such groups as Scout troops and wildlife clubs will have more opportunity for camping.

"Next to swimming, camping is the most relaxing thing a person can do," Keene said. Golf takes concentration and so does reading, except for Westerns, he believes. In Europe, during World War II, a man told Keene

that he read Westerns for relaxation, instead of "problem" books. The man was General Eisenhower, on whose honor guard Keene served during the war.

Keene says that with national statistics showing that at some time during his lifetime he was mentally ill, and with "Peace of Mind" and "Peace of Soul" currently two of the nation's best-selling books, there is a wholesale need for people to relax.

## 10 BG ELKS IN STATE AWARDS

BELLE GLADE — Ten members of the Elks Lodge 1716 were presented Monday night with certificates of appreciation from the Florida State Elks Association, Inc. for paying in full the Harry-Anna crippled children's trust fund certificate.

Trustee Frank C. Dooley gave the certificates to A. E. Kirchman, Harold Rabin, Morris Schulman, Arthur Wells, Wilbur Whitlock, Woodrow H. Buss, Louis Kirchman, S. N. Knight, J. L. Murphy, and Berthold Pelka.

Also at Monday night's meeting, lodge members voted to operate the Friday night teenage center again this summer in cooperation with the City Recreation Commission. Both parents and students have requested the center's operation again, Elks were told. The lodge will hold a barbecue for members and guests at 7 p.m. tomorrow at the Elks Home on SE Ave. E, the first of monthly Saturday night barbecues to be held throughout the year.

U.S. farmers use nearly 7 million tons of finished steel a year — around 300 million pounds of raw rubber — over 17 billion gallons of crude petroleum and 22 billion kilowatt hours of electricity.

Leland Keene, Pahokee assistant coach and manager of the swimming pool, is an ardent outdoorsman. He engaged in the 150-mile search for a campsite recently in behalf of the schoolboy patrol.

No matter where he went in that radius, he said, he found "posted—no trespassing," signs on all property suitable for camping. In organizing a statewide camping club, he hopes to persuade landowners to open some of their posted property around creeks.

Between now and June 1, Keene will be recruiting members for the organization, and may be called or written to at Box 384, Pahokee, by any adult interested in camping.

WELCOMING VISITORS during luncheon were Pahokee Mayor or Lewis Friend, left, and Belle Glade Mayor Walter Ashley, extreme right. Here they are shown during program. In foreground, center, the James Fox, of Olin-Mathieson Chemicals, travelling with the editors.

COUNTY AGENT M. U. "Red" Mounts was luncheon speaker on Glades agriculture. Above, center, he and (l-r) Inman Wells and John L. Evans of South Bay Growers talk with visiting editor.

## TUESDAY'S IT

Next Tuesday, May 8, is the day that all qualified voters should exercise their right of ballot and go to the polls. From the 300,000 registered voters, public officials with far-reaching power are subject to the will of the people on that day. In the Glades, Belle Glade, South Bay and Lake Harbor will also vote on county district officers, and Pahokians will cast their ballots in a candidate littered city election.

## G.S. Songfest For Glades Fri.

The annual Glades Girl Scout public song festival will be held a week from today, from 4 to 7:30 p. m., at Pahokee City Park and Pool.

Belle Glade, Clewiston and Pahokee Scouts and leaders are invited to attend. The towns rotate serving as hostesses each year. The festival originated nine years ago in Pahokee, under the leadership of Mrs. Joe Tom Boynton.

Scheduled for the festival are swimming from 4 to 5 p. m.; free time from 5 to 5:30; noon supper at 6, and song and skit time to follow. Mrs. Hugh Branch will lead the songs, and a five-minute skit will be offered by each troop. Honor guests will be four girls from the Palm Lake Council, and will be the national GS roundup in Michigan.

At the meeting, plans were made to obtain more land from the state, according to N. B. Willis, secretary-treasurer.

Elected to the board were W. C. Young, W. A. Wooten, Jr., Dr. Y. C. Mulberg, Louis Kuchner, J. R. Davidson, E. D. Humphries, and Willis. The board elected Young as president, Wooten vice president, and Willis secretary — treasurer. Next executive board meeting will be May 30 at 8 p. m. at 332 W. Ave. A, Willis said.

## HEARING PLEA IS DENIED

BELLE GLADE — The petition of 17 Sylva Heights property owners for a public hearing to revoke a variance permit allowing a service station to go up in the Sylva residential area has been denied by the Zoning Board of Appeals.

N. B. Willis, who presented the petition and a letter in behalf of the group at last City Commission meeting, said he had received notification of the denial following the Zoning Board meeting Tuesday.

The request was denied because the Mar. 1, 1955 hearing for the variance was held after being fully advertised, and there were no complaints at that time, the board's letter advised.

Willis said the letter did not mention his charge that the board was not legally empowered to grant the variance permit in the first place. The denial for a further hearing ignores the petition representing some 69 lots and properties out of the 74 zoned residential in Sylva Heights, Willis said.

The next step could be court action, but that awaits the decision of the Sylva property-holders as to whether they want to put up the necessary \$10,000 to \$15,000 trial bond, according to Willis.

## PELICAN BAY IN ANNUAL MEETING

BELLE GLADE — Members of Pelican Bay Co-op, in their annual meeting last week, voted to change the by-laws to make 69 lots and properties eligible for membership.

At the meeting, plans were made to obtain more land from the state, according to N. B. Willis, secretary-treasurer.

Elected to the board were W. C. Young, W. A. Wooten, Jr., Dr. Y. C. Mulberg, Louis Kuchner, J. R. Davidson, E. D. Humphries, and Willis. The board elected Young as president, Wooten vice president, and Willis secretary — treasurer. Next executive board meeting will be May 30 at 8 p. m. at 332 W. Ave. A, Willis said.

## PAHOKEE IN FINANCIAL TOP SHAPE

PAHOKEE — A six-year financial report released this week by Mayor Lewis Friend shows the city to be \$41,423 better off in its various bank accounts, and current in its obligations.

As of Apr. 30, 1956, the city had \$67,151 banked, as against \$26,228 the same date in 1950, Mayor Friend said.

Tearing 1950 and 1956 for comparison, the mayor reported that in 1950, on hand Apr. 30, 1944; hospital bond principal and interest sinking fund, \$4,763; water works general fund, \$3,573; water works bond principal and interest sinking fund, \$6,184; water works reserve account, \$6,564, for the \$26,228 total.

In 1956, as of Monday, the totals stood: general account, \$12,454; hospital sinking fund, \$3,787; water works general, \$8,105; water works sinking fund, \$16,405; water works reserve, \$20,000.

Added to the 1956 financial side, Friend said, is a water works equipment fund which City Clerk's office set up on the recommendation of the bonding company two years ago. This fund totals at present \$1,000.

Thus \$28,228 was on hand in the city's bank accounts as of Apr. 30, said the mayor. The water works fund of \$20,000 stands as requested by the bonding company as a minimum reserve, he reported.

All indebtedness of the city on hospital, water works, and city hall have been met and are current, Mayor Friend's report concluded.

## POPPY DAY IS SET FOR TUES.

PAHOKEE — Officially proclaimed by Mayor Lewis Friend, "Poppy Day" will be next Tuesday, under sponsorship of the Pahokee American Legion auxiliary.

Mrs. Inez Davis is in charge of arrangements. Poppies will be sold near City Hall to residents coming to the polls, and in front of the post office, she said.

Mrs. Marie Funderburk has been elected new president of the auxiliary; Mrs. Betty Holman, first vice president; Mrs. Gladys Williams, second vice president; Mrs. Beatrice Salvatore, treasurer; Mrs. Jane Pell, chaplain; Mrs. Cletis Hand, sergeant-at-arms. Club officers will be installed jointly with the Legion Post officers.

## Cancer Drive Is Under Way

American Cancer Society Drive Chairman Leonard Dobrow of Pahokee said this week that funds are already being received in the current drive, while in Belle Glade the BFW with Mrs. Gladys Williams as chairman, made plans to sponsor the cancer campaign in that community.

Monday evening between 4 and 5, a house-to-house collection will take place in Pahokee and Canal Point, with a Women's Club committee headed by Mrs. George H. Tucker, Jr. in charge.

Dobrow said that plans have also been completed to set up a downtown booth on election day.

Funds raised during the cancer campaign, Dobrow said, go toward a program of cancer information to make people aware of the danger signals of the disease; pay costs to and from tumor clinics for authorized indigent cases, as well as financing the bandage and dressing services for such cases; allocate funds to help finance the state's 18 tumor clinics; support the national cancer research society.

## Wildlife League Camps

PAHOKEE — Members of the Pahokee Wildlife League numbering 24 boys, accompanied by their leaders, W. A. Reynolds, and J. R. Davidson, will spend the weekend near Fish Eating Creek.

## CURRENTLY .....

On our office wall hangs a picture of Alben Barkley and his wife, Jane, taken just after their marriage, in the kitchen of their old-fashioned Washington apartment. We look at it in sorrow this week, for with the Veeep's sudden death Monday the nation lost one of its most loyal lawmakers. One small consolation is that the Veeep went out the only proper way for him—with his boots on, addressing a public political forum.

Daylight saving time has struck again. And none of the meetings that keep all of us late enough to miss the good TV programs have set their time back an hour. It seems best to face this thing philosophically: no TV until next fall, when the networks go back on standard time.

Next Tuesday's the day—every registered voter who can walk, run, or creep is due at the polls. It should be remembered that this is one of the few activities of citizens which does not require—in Florida—payment of a tax or expectation of a subsidy.

**GI HOUSING BILL:** Will the GI home-loan program be extended? Under present law, the famous "GI-BILL" for home buying will expire July 25, 1957. Cong. Ed. J. Fawcett thinks the time should be extended until some other type of home loan plan can take its place.

Last week Fawcett introduced a bill calling for the extension of the present law for three years for disabled veterans and a "1-month extension of eligibility for each two full months of service for those who served actively after Sept. 15, 1940 and before July 26, 1947." Fawcett thinks that the program should be allowed to terminate gradually rather than suddenly to prevent a last minute rush of home buying; and to give time for all veterans to benefit from it.

**FARMERS' FRIEND:** Score one for Cong. Billy Matthews. The House passed his small watershed bill last week. Under the bill, small watershed districts can be organized for flood control and water conservation, with the Federal Government paying the cost on the flood control part of the program.

Farmers and other groups who organize watershed associations can develop the projects for recreation, municipal water supply, or use by industry and can borrow up to \$150,000 for their project from Uncle Sam. If the bill passes the Senate, you can look for many small watershed projects to spring up in the Eighth District. The passage of this bill, in the midst of his hot political race, probably will insure the entire farm vote for "Mr. Billy."

**ASK SENATE HELP:** House members of the Florida Delegation this week joined in asking the Senate Agriculture subcommittee of the Appropriations Committee to okay \$80,000 for the construction of the agricultural research laboratory at Winter Haven. Hearings have been completed on this project in the House and the amount is in the budget. The combined statement was originated in the office of Jim H. Haley, in whose district the laboratory will be built.

**NO POLITICAL PARTY:** All parties in Washington are not political. Last week Cong. Paul Rogers threw a Coke party for nearly 150 visiting high school

## BUILDING PERFORMANCE

Performance requirements of modern military fighter planes involve the design and engineering of more than 316 times as many parts as did World War II fighters. But aircraft industry "know-how" and greatly increased scientific and engineering staffs have held engineering lead time from "prototype go-ahead" to first flight, to slightly less than two years.

## Mental Health Important

The promotion of good mental health will be stressed in the Florida Campaign for Mental Health which will be carried on May 9-23, as well as the fight against mental illness, it has been announced by Mrs. E. C. Johnson, chairman of the PAAKOE area. Workers will distribute pamphlets on mental health for all ages, with Mrs. Clyde Canipe and Mrs. Lois White assisting Mrs. Johnson.

Many people, when they hear the term mental health think first of mental illness, Mrs. Johnson said. But mental health is far more than merely the absence of mental illness. Mental health is something all of us want for ourselves, whether we know it by name or not. When we speak of happiness, or peace of mind, or enjoyment, or satisfaction, we are usually talking about mental health, she said.

Mental health has to do with everybody's everyday life, she continued. It means the overall way that people get along in their families, at school, on the job, at play, with their associates, in their communities. There is no line that neatly divides mentally healthy from the unhealthy. There are many different degrees of mental health. We must become acquainted with the characteristics of good mental health and promote them in our own lives and in the lives of our families as we join in the march against mental illness, Mrs. Johnson said.

## Hospital Week Saluted

**BY R. L. KLEDZIK**  
Administrator, Everglades Memorial Hospital  
During the week of May 6-12, 1958, the nation celebrates National Hospital Week as a tribute to all hospitals for their humanitarianism and tireless effort in their endeavor to prolong the life span of humanity — to give succor and comfort to those ill and injured and provide relief for those in agony.  
Your community hospital — small and perhaps unknown for any spectacular events — humbly joins the nation in paying its tribute to all hospitals who so diligently provide their services to the ill, the injured and the maimed, barring none because of race, creed, color or financial standing.  
Your hospital, as well as many small community hospitals scattered throughout the country, serve their community needs not so much by spectacular deeds but by humble and sincere service to those who seek their aid, always ready and available in time of need.  
So it is with deep reverence that we salute all hospitals and their staffs for their ideals and the unheralded sacrifices and devotion of the personnel who so charitably serve in order that all who seek asylum within their doors may find relief and comfort from their ills.

## BETH SHOLOM GLADES JEWISH COMMUNITY CENTER

### AN OPEN LETTER

Dear All: Several years ago a band of men and women got together to form an organization for holding Hebrew services on Friday night.

From this humble beginning and under the able leadership of Harold J. Rabbin, services were held each Friday night at the Woman's Club of Belle Glade.

Three years ago when Jonas Lehrer became president a drive was started for the congregation to have its own home. Plans were made and several drives were started, which proved highly successful.

With the assistance of the people of Belle Glade and Pahokee our home became a reality. One year ago the president appointed Mr. Al Mutchak as building chairman. Immediately Al started in, plans were checked and then Al began his building program. In a matter of 60 days Al had the building completed. Today this Temple stands as a monument to the Hebrew people not only of Belle Glade and Pahokee, but of the Glades area. To Al Mutchak, we the Jewish people wish to thank we for his untiring efforts to make this Beth Shalom a home where our children can attend Sunday school and be briefed in Jewish history and lore.

Al Mutchak—we salute you. —Jonas Lehrer, president

The ladies auxiliary will meet Monday night at 8 o'clock at the home of Mrs. Kathy Golden.

## Unsolved Crimes In Palm Beach County Show Need For Better Law Enforcement

Lack of good law enforcement in Palm Beach County is plainly shown in a series of recent crimes which remain unsolved. These cases include disappearance of a well-known judge and his wife, a number of murders, frequent displays of gambling and moonshine operations, and a growing toll of highway deaths.

An efficient sheriff's department, well-trained personnel and modern methods of crime detection and investigation can reduce this crime wave.
